26 September 2023 **“Smart Tender - E-tendering Platform” and “Open E-tendering Platform”** **Suspension of user accounts of Individual Consultant and Contractor**

The Independent Commission Against Corruption (ICAC) issued a news announcement on September 22, 2023, stating that 23 of the arrestees were charged with conspiracy to offer and accept bribes totaling over \$6.5 million and conspiracy to defraud in respect of various contracts of grand renovation and other projects of 10 residential and commercial buildings. For more information, please click [here](#).

As per our current practice, we have immediately suspended the user accounts of the consultants or contractors involved in litigation cases with law enforcement agencies in Hong Kong, regardless of whether the case is under prosecution or has reached a judgment. The affected consultants and contractors will be unable to participate in any bidding activities conducted through our E-tendering platforms, including not receiving bid invitations, being unable to download tender documents, and being disallowed from submitting bids until further notice. If there is a judgment result in the litigation case or if the implicated company provides relevant evidence to request the reinstatement of their account, we will review the situation to determine whether to reinstate their user account on the E-tendering Platforms.
